

main.py

Run

Output

```
1 arr = [2, 4, 1, 3, 5]
2 count = 0
3
4 for i in range(len(arr)):
5     for j in range(i + 1, len(arr)):
6         if arr[i] > arr[j]:
7             count += 1
8
9 print("Inversion Count:", count)
```

Inversion Count: 3
